Instructions for Authors

General

1. Manuscripts must be accompanied by a cover letter, including the following information: (i) the journal section in which you wish to publish the article; (ii) the declaration that the work is original, has not been published, and is not being considered for publication elsewhere, in any language, except as an abstract; (iii) a statement of financial or other relationships that might lead to a conflict of interest; and (iv) a statement that the manuscript has been read and approved by all authors.
2. As a general rule, PDF files are not accepted for submission.
3. Should the manuscript be accepted for publication, the copyright ownership will be transferred to I Pensiero Scientifico Editore. No part of the published material may be reproduced elsewhere without written permission from the Publisher.
4. The manuscript should be typed double-spaced and arranged as follows: (1) title page, (2) abstract and key words (both in English and Italian), (3) text, (4) acknowledgments, (5) references, (6) figure legends, (7) tables. Number pages consecutively, beginning with the title page 1.
5. In order to maintain a uniformity of style the Editorial Office reserves the right to make, when necessary, linguistic alterations in the manuscript; these will be sent to Authors at the time of proof approval.

Title Page

1. Title (both in English and Italian) and short running title of no more than 45 characters.
2. Authors' names (Full first names).
3. Affiliations from which the work originated.
4. Funding: information on grants, contracts, and other forms of financial support.
5. Disclosures: full disclosure of any relationship with industry. If no relationships exist, none to declare should be reported.
6. Corresponding author contact information: full name, complete postal address, telephone number and e-mail address of the author to whom communications should be sent.
7. Total word count, including abstract, text, references, and figure legends.

Abstract

1. For *Observational Studies*, provide a structured abstract of no more than 300 words, presenting essential data in 4 paragraphs introduced by separate headings in the following order: Background (rationale for study), Methods, Results, Conclusions. All data in the abstract also must appear in the manuscript text or tables.
2. For *Current Perspectives*, *Case Reports*, *Open Issues*, *Ten Questions About...*, and *Clinical Pathways in Cardiology*, provide an abstract of no more than 200 words.
3. A list of 2 to 5 keywords for indexing purposes should be typed at the end of the abstract, to be selected from the Medical Subjects Headings, National Library of Medicine (<https://meshb.nlm.nih.gov/search>).

File name: Real world evidence.docx

File type: manuscript

Title: Real world evidence

Description: The paper discusses the controversy between the Real World Evidence data, collected through observational studies, and the gold standard of clinical epidemiology, i.e. randomised controlled trials. The authors suggest the need of an integration between RWD and RCTs in order to better understand risks and opportunities of new medical technologies and innovation.
